Mayor Cielinski advised Ms. Park that the town was actually contracting the commercial garbage service out of Casper. Ms. Park also asked if she could secure outside contract services within the town limits. Mayor Cielinski advised that there is another business in town that has been paying for a residential pickup and then has additional pickups by Waste Connections. Mayor Cielinski advised Ms. Park that the commercial users were contacted over a year ago and advised them that there would be an increase to address volume. Public Works Director Dave Andrews advised the council it would be acceptable to reduce the service to single, residential pickup and she could contract through the private sector.

420 W. DEER STREET – SEWER COMPLAINT – Mr. Gary Glass addressed the council regarding continuing problems he has had in his private sewer line. The current Deer Street sewer line is higher than Mr. Glasses line negating his ability to connect into the Deer Street line. Mr. Glass asked the council to consider paying to maintain the line. Mayor Cielinski advised the council that the town did offer Mr. Glass a free tap, just as Ms. Ackers was given, but only the council has the authority to offer free maintenance. Dave Andrews asked Mr. Glass if he had used any root killer through the line, and he confirmed that “yes, he had.” Mayor Cielinski urged the council to consider the setting of precedence for future councils and property owners. The town code makes it the responsibility of the property owner to maintain their own service lines.

There are several unknowns regarding this complaint. Members of the council expressed concerns regarding the approval of town funds for the maintenance of a private sewer line. Mayor Cielinski advised Mr. Glass that they would provide a new tap for Mr. Glass, just as was given to Ms. Rose Ackers, but the town would not maintain any private service lines.
